

Filming in the City of Edmonton

A filming permit is required for any filming or commercial still photography production taking place on public property, in a City of Edmonton operated facility and/or commercial filming with a drone.

Public property includes roadways, sidewalks, and City parks/parkways.

The Edmonton Screen Industries Office is here to help you with the permitting process. We will put you in touch with the right people and help make it easy for you to get a permit. It is recommended that you begin the permitting process at least 10 business days before filming activities are scheduled to begin,

Permitting your project helps the Edmonton Screen Industries Office and the City of Edmonton track production numbers and helps us report on activity and growth in the sector.

If you are filming on private property, either indoors or outdoors, you are not required to have a permit (but you are welcome to still register the production through the City's permitting process, so they have a record to follow-up with any community inquiries).

How to Apply For a Permit

Step 1 - Get your info together:

Your Contact Info

Production Company Info

Project Name

Project Description (genre, approx length, format, quick synopsis)

Dates & Locations*

Size of Crew:

Small (1 to 10 people)

Medium (11 to 20 people)

Large (21 or more)

Type of Equipment:

Low impact (no rail or boom)

Medium impact (some structure)

High impact (rails, booms, etc.)

*If you do not have exact dates and locations, give as much info as you have:

Dates: Ideal date range, how many days, weekdays vs weekends, morning vs overnight, etc.

Locations: confirmed/not confirmed, ideal areas/requested areas, general neighbourhoods.

If you are planning to film with a drone:

Contact details for permit holder who will be on site

Copy of Pilot's Certificate (basic vs advanced)

Copy of Drone Registration Certificate

A list of all equipment that will be on site

Map including flight path, safe areas with lateral distances, distance from nearest Heliport, and launch/land zones

Arrival and departure time from site including setup and take down time

Anticipated size of crew

A description of the production if possible

Step 2 - Civic Events Application Form

Fill out the application form here:

https://www.edmonton.ca/attractions_events/rentals_event_planning/filming-drones-photography.aspx

City of Edmonton

Civic Events 780-944-7740

civic.events@edmonton.ca

Step 3 - Insurance

Get a certificate of insurance (COI) naming The City of Edmonton as an additionally insured for 2M general liability. Here is their info for the COI:

City of Edmonton

19 Flr. Edmonton Tower

PO Box 2359 Stn Main

Edmonton, AB AB T5J2R7 Canada

For small productions:

Do you not have production insurance? Check out Film and Video Arts Society of Alberta (FAVA). A major benefit of FAVA membership is having access to their general & liability insurance for artists. Both membership and insurance are very affordable.

<https://fava.ca/equipment-and-studios/equipment-rentals/#rental-insurance> (see: General Liability Insurance)

For Drones:

Certificate of aviation insurance with a minimum of \$2 million in aviation liability coverage and the City of Edmonton listed as an additional insured.

Step 4 - Details

Each project will have unique needs. Once you have submitted your Civic Events Application Form, a City representative will help guide you in what information they may require to suit your specific project

Notification Letter

You will likely need to provide a Notification Letter (contact locations@edmontonscreen.com to request a template). This letter will need to be distributed to the neighboring homes/businesses of your requested filming area before filming begins.

It is up to each production to be professional and communicate with local residents to keep our filming reputation healthy in Edmonton. When neighbours are surprised by disruption in their communities, it can become difficult to film in this area next time.

Traffic Request

If you plan to have equipment, cast or crew in a roadway or on a sidewalk, you will need to plan how to make the area safe for pedestrians and/or motorists.

Provide a map that clearly shows your traffic request(s), for roadways and for sidewalks. The City can help you with these requests. You can also hire a locations manager with experience in permitting and road closures/requests to make these arrangements.

Fees may be associated with traffic requests.

Parking Requests

If you want to reserve parking for your production vehicles, provide a map with the dates and times and clearly show what areas you want reserved for parking.

Reserved parking will come with an equipment and service fee and varies depending on the area requested.

Filming in areas outside of Edmonton

Each county and municipality has individual procedures for event permitting. See below for individual communities contact information, or contact locations@edmontonscreen.com and we will help you get started.
