Troubleshooting Issues with this PDF Form

If you are experiencing any issues with this form, check that you are using the latest version of Adobe Acrobat Reader or Pro DC.

Updating Adobe Acrobat

Adobe recommends that users update to the latest version to take advantage of security and stability improvements.

For more information about updating Adobe Acrobat, visit the [Adobe help page](#).

Updates can be installed as described below.

Updating automatically from the product

To install Adobe Reader and Acrobat updates from Adobe Updater, do the following:

1. Launch Adobe Reader or Acrobat.
2. Choose **Help > Check for Updates**.
3. Follow the steps in the Updater window to download and install the latest updates.

Updating Adobe Reader on the web

1. Open Reader and choose **Help > About Adobe Reader**. Note your product version.
2. Go to the Adobe Reader [Downloads](#) page. The web page automatically detects your OS and Reader version.
3. If the web page indicates that a newer version is available, choose **Install Now**.
4. Click the downloaded file and follow the instructions.

Digital signature field not working

- This can happen on a Windows machine when the Adobe Reader has a glitch or needs to be updated. To fix this, you need to repair Adobe Reader from **help>repair installation**, reboot the computer and try signing the PDF again.
- If this does not fix your problem, you may have to re-install your software. If you are running the free Adobe Reader, just uninstall, download a fresh installer and re-install. If you are running Acrobat, it gets a bit more involved if you don't have access to your installer: You can lookup and re-download your version of Acrobat via the "My Orders" page on Adobe's website: <https://www.adobe.com/account/account-orders.html> You can also lookup your serial number on the "My Products" page: <https://www.adobe.com/account/my-products-services.html#MyProductsHeader>

And, if the download via "My Orders" does not work, you can find the installer here:

<http://helpx.adobe.com/acrobat/kb/acrobat-downloads.html>

You may even consider running Adobe's Cleaner application to make sure that nothing from your old installation remains on the system: <http://labs.adobe.com/downloads/acrobatcleaner.html>
